Diode laser

755nm 808nm 1064nm 940nm

The advertisement features a large, white, upright laser machine on the left with a digital screen and a flexible arm. To its right, four different laser handpieces are shown in a row, each labeled with a wavelength: 755nm, 808nm, 1064nm, and 940nm. On the far right is a handheld laser device with a screen. The background is a solid blue color with white text and graphics.

Select a proper laser for your clinic with our laser teardown and repair photo guides.
