

DIODE LASER SUPPLIER FROM CHINA

DIRECT MANUFACTURER OF COSMETIC DIODE LASERS FOR HAIR
REMOVAL

STRONG COOLING

Compressor water cooling 

Noise level ★★★★★
Low noise, dynamic start and stop

Efficiency ★★★★★
Especially in high power laser applications

Energy consumption ★★★★★
Good cooling effect and energy saving

Heat handling capacity ★★★★★
Low requirements on ambient temperature

Ordinary refrigeration system

Noise level
High noise, the cooling fan works continuously

Efficiency
Relatively low, especially in high-power applications

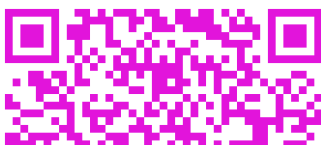

Energy consumption
High power, low energy efficiency ratio

Heat handling capacity
High environmental temperature requirements, poor effect above 30 degrees

VS

Warranty-backed diode lasers for effective hair removal. Certified quality and global delivery available now.

Original laser hair removal equipment direct from the producer!
